

## ACKNOWLEDGEMENTS

Though only my name appears on these Manuscripts, a great many people have contributed to the studies I did. I owe my gratitude to all those people who have made these studies possible.

My Supervisors, Prof. W. Mwanda, Prof J. Kiarie, and Dr. O. Gachuno all of the University of Nairobi; my Mentors Prof. Grace John-Stewart and Jennifer Unger, both of the University of Washington who were always there to listen and give advice on my Fellowship project. I am deeply grateful to them for the time they took to discuss my project and the technical support and advice they gave that really made it possible for me to complete the Fellowship study.

I am grateful to Mr. Bourke of University of Washington, for giving me extra guidance in the development of the research project. His insightful comments and constructive criticisms at different stages of my research were thought provoking and they helped me focus my ideas. I am sincerely indebted to him for teaching me Sample size determination using Faiss-withCC.

I would also wish to express my deepest appreciation to Ms. Lindsay Mum (UW) and Mr. Walter Ndege (UoN), for the smooth pleasant

administrative support throughout the fellowship program.

I am most grateful to the University of Nairobi for according me the opportunity for a Fellowship programme and for allowing me time to study. I am indebted to the funding institution for Prime-K, The National Institute of Health for the financial support for the whole study.

I would like to express my deepest appreciation to Prof. M. A. Mwanthi and Dr. Olewe for the support they accorded me when working on the urban slum Research project. I am also deeply indebted to Mr. Boniface Kyenge for opening my eyes into the field of ICT in management and his assistance in the review work on Service Oriented Architecture and its role in Healthcare management. I am also most grateful to Mr. James Obuhuma for the great support he accorded me in spatial analysis.

Finally, I wish to convey my gratitude to the University of Nairobi and Kenyatta National Hospital Ethics Review Committee for the approval they gave to my research proposals.

Rajula E. R., Community Health Thematic Unit, University of Nairobi P.O. Box 19676-00202, Nairobi, Kenya.
