East and Central African Journal of Surgery

Vol. 29, Issue 2, 2024

Abstract

In the originally published article-in-press version of the manuscript “Preliminary results of sentinel lymph node biopsy using blue dye for early breast cancer staging: A single-center experience in Addis Ababa, Ethiopia,” the author list was composed of; Philimon Getu Bekele, Sukmal Saha, Efeson Thomas Malore, Michael Girma Mamo, Soliyana Demelash Gizachew, Taye Jemberu Robele, Filagot Bizuneh Mikru, and Tadesse Mitiku Alemu.

The published corrected proof version of the manuscript features three new additional authors; Nigusse Ahmed Mohammed, Abel Asfaw Bizuneh, and Hermela Addis Gebregziabher.

Correction Notice: East and Central African Journal of Surgery (2024)

In the originally published article-in-press version of the manuscript “Preliminary results of sentinel lymph node biopsy using blue dye for early breast cancer staging: A single-center experience in Addis Ababa, Ethiopia,” the author list was composed of; Philimon Getu Bekele, Sukmal Saha, Efeson Thomas Malore, Michael Girma Mamo, Soliyana Demelash Gizachew, Taye Jemberu Robele, Filagot Bizuneh Mikru, and Tadesse Mitiku Alemu.

The published corrected proof version of the manuscript features three new additional authors; Nigusse Ahmed Mohammed, Abel Asfaw Bizuneh, and Hermela Addis Gebregziabher. The mentioned authors, mistakenly left out

during submission, were involved in the collection and analysis of data as well as in the drafting of the original version of the manuscript and in addressing the editors’ and reviewers’ comments.

All the original authors of the manuscript submitted an updated author statement on 20 June 2024, detailing and justifying the changes, which the editorial team of the East and Central African Journal of Surgery (ECAJS) has approved after careful consideration. The author changes have been implemented on the final version of the manuscript, featured in Volume 29, issue 1 (2024) with 10.4314/ecajs.v29i1.4 as its digital object identifier (DOI).
