

## EDITOR'S NOTE: THE HEROS OF NIJOTECH

On daily basis, experts in their different fields of endeavor work within their tight schedules behind the scene, reading, reviewing and re-researching articles submitted to NIJOTECH. These people get no tangible reward for this arduous job as this is commonly called a peer review community service.

In this issue, I on behalf of the Editor-in-Chief, Engr. Prof. J. C. Agunwamba, the Dean of Engineering Engr. Prof. O. U. Oparaku and other Associate Editors wish to express our gratitude to these unique and devoted people. We owe the success recorded so far in the quality of our papers to them. Apart from providing timely reviews, they point out the strengths and weaknesses of an article and in most cases proffers solutions, suggest methodologies and even recommend better procedures to make our papers eligible.

It is only based on their recommendations that we decide on the status of an article. These statuses are simply decided on a 5-point scale as shown in Table 1. A minimum of three review reports is normally required for a decision to be enacted.

For this reason, we devote the following pages to list their names and affiliation as the key drivers of our

journal in this last issue of 2016. Owing to the fact that their status change from time to time, we will list them with only initials and surnames and accord them the befitting status of MEMBERS OF THE EXPANDED EDITORIAL BOARD ... and they are actually the HEROS of NIJOTECH.

Table 1: NIJOTECH article decision scores

Grade	Points	Decision
A	90 – 100	Accept
B	80 – 89	Minor Revision
C	70 – 79	Major Revision
D	60 – 69	Revise and Resubmit
E	0 – 59	Reject

Do you care to be our hero? Just register on [www.nijotech.com](http://www.nijotech.com) and provide full details of all the requested information and we will let you know if you fit.

**Engr. Prof. Emeka S. Obe,**  
**Editor and Journal Manager**
