Retraction

Retracted Article: Shuaibu Abdullahi Hudu and Mohammed Ibrahim Saeed (2022). Potential Differential Marker in the Diagnosis of Leptospirosis. Sokoto Journal of Medical Laboratory Science 2022; 7(2): 31 – 39: <https://doi.org/10.4314/sokjmls.v7i2.4>.

Reason for retraction: The article is being retracted on the advice of the authors due to a significant similarity between it and the previously published article by Fish Low and Coauthors: Plasma proteome profiling reveals differentially expressed lipopolysaccharide-binding protein among leptospirosis patients. link: <https://doi.org/10.1016/j.jmii.2018.12.015>. This retraction was initiated by authors following a complaint from Fish Low and Coauthors. The retraction is being published to differentiate this date clearly from when the original paper was published. <https://dx.doi.org/10.4314/sokjmls.v9i2.33>
